Germ Wars Features Key:

- Hoverboard Race Gameplay - On-foot delivery games are a blast on the dirt, but how fun are they on the board?

- Bigger Board - Bigger is always better! To keep things fun and sucess-ful, we've blown up the board and given you a new challenge. Run faster? Tougher? Keep on truckin'?
- Bigger Crew - Increase the size of your delivery crew and crank up the fun. Need more help? We've added another helper! Upgrade your crew with a new delivery driver and a second team.
- New Truck & Vehicle - Beef up your delivery job with a new truck and vehicle in the new truck fleet. The default truck is just fine, but when you're ready to build your ultimate vehicle, you're ready.
- New Obstacles - Get outside on newly-designated obstacles, or create your own on the mapped course.
- Snyster Overload - Dodge big fish, annoy little prawns, and bounce out of the way of police helicopters
- Simulated Traffic & Weather - Crash, crash, crash on the board track or take the scenic route over land and lakes with real-life traffic
- Time Attack - Go against the clock and beat your previous best times.

The name Pandemonium is derived from “Pandemic”, the disease that struck the London music scene in the late 90’s. The Infected are The Undead, who have been infected with a virus which transforms them into rabid mutants each generation. A pandemic has struck the London music scene, infecting bands, fans, and even record companies. The infected are considered to be mindless horde eaters that will feed upon anything - humans, other infected, or even possessions such as records, videos, equipment, and band merchandise. The player is tasked to chase down the infected to expose them, allow them to be cured by the magic of the wonder-wizard Nigel Ward (The Black Knight), or to destroy the bridge that links Pandemonium to its underworld counterpart. The Metaphysics: Pandemonium is a supernatural world where players are sent on a quest to perform a series of miracles - defeating the goblins, finding the wizard Nigel Ward, or ruining the bridge to Pandemonium. Each player plays the role of a hero who is “magically” transported by a giant living creature called the “Pit Dragon” to a level procedurally generated with the following characteristics: World Dimension: - Customizable - Up to 4x4m (multiple dimensions are available but require two players) - Multi-level, isometric top-down view - Explicit levels for multiplayer - All levels have unique background art - Tiles can be place

anywhere on the map - Tiles can be used as platforms or walls - All game objects can be moved, placed, and rotated - Monuments, Observers, Obelisks, and other tiles can be rotated and have their own appearance - Players can hover and walk around the world - Left-click on any tile does exactly what you would expect - Pressing numpad 4 or tab increments 5 tiles - Pressing numpad 6 or shift keys increment 10 tiles - Right-click on any tile does what you would expect - Pressing numpad 1 or 2 decreases and increases worlds to 1x2m - Pressing numpad 3 or shift keys decreases worlds to 1x1m - Pressing numpad 0 or tab decrements or increments worlds to 1x1m Living Bricks: - The world is built using procedurally generated bricks, which are tile based. Many tiles are animated, and each tile has its
