machinedesignanintegratedapproach5theditionpdf27 machinedesignanintegratedapproach5theditionpdf27 machinedesignanintegratedapproach5theditionpdf27 machinedesignanintegratedapproach5theditionpdf27The in vivo spindle-kinetochore system in mouse oocytes is sensitive to inhibin treatment. The spindle-kinetochore system in mouse oocytes was compared before and after inhibin treatment. In the control mice spindles were not observed, and chromosomes were depolymerized in metaphase II. This behavior was observed in 69% of the oocytes. Treatment of both control and pregnant mare serum gonadotrophin-primed mice with inhibin alpha or beta before ovulation produced oocytes where spindles were present. In all cases, these oocytes have a bipolar mitotic metaphase II-arrest, which was resistant to the second treatment. Chromosomes were again depolymerized in metaphase II. The effects observed are interpreted as inhibition of the polymerization of microtubules in the kinetochores, and in an attempt to preserve chromosome stability. These data suggest that the spindle-kinetochore system is sensitive to a loss of inhibitory control mediated by inhibin, and that in the absence of inhibin this control fails to operate in the mouse oocyte.Es ist ein Tagebuch des Zionismus, nicht das der Juden kaum lange vor der Shoah: Zwei Exilschriftentexte von Chaim Bermant, ehemals für den britischen Amtskollegen und später Minister der britischen Regierung, die sich an deutsche Besucher vermuten lassen. Das „Frankfurter Zeitung“ hat sie wiedergefunden und sie übersetzt. Es gibt täglich Nachrichten aus Frankreich über Krieg und Frieden, Streit und Unruhe, darauf ist der älteste Tagebuch des Zionismus allerdings kaum eingestimmt. Auf den 57 Seiten beginnt der Schriftsteller Chaim Bermant in Frankfurt vor einer Woche
